

SMITH QUICKSELECT

Model #: CSM.2

The Inspire Fitness Smith QuickSelect, a selectorized Smith Machine maximizes space and delivers a more secure member workout by integrating the smith bar directly into the weight stacks. Our patented selectorized smith bar does away with the need for plates to be loaded and offloaded of the machine. Just move the bar into place, set your weight with the pin select system, lock the bar in place, and go. No spotter needed.

MSRP US: \$5999

FEATURES

Selectorized Smith Machine

The patented Smith Bar design integrates into the weight stacks, no need for a spotter or weight plates.

Counterbalanced Bar

The bar itself is weightless, so moving it into workout position is effortless and easy for athletes of all strength levels.

Safer Workouts

This unique design requires you to set the safeties before you exercise, so every workout is safer.

Space-Saving Design

The overall footprint 54.5" x 69.5" x 94" is approximately 2' smaller than a standard smith machine, given no weight plates are needed.

Efficient Weight Stack System

Changing weights is easy and safe. Simply move the pin in the weight stack to adjust.

Optional Bench

Add a weight bench to perform traditional pressing and overhead exercises for more versatility.
